

Haul Route Calcium Base Stabilization

WHAT: Calcium base stabilization of approximately 106 km of roads

WHERE: Identified Haul Routes throughout the County

WHY: The roads identified as Haul Routes are in need of repair. This project will create durable and lower maintenance all-weather roads.

WORK COMPLETED TO DATE

Approximately 64 km has been completed as of July 31.

BENEFIT TO RESIDENTS

The work done on these haul route roads will reduce maintenance costs once completed, as well as ensure they are safe and reliable for all road users, and that our producers can get their products to market.

Total project costs: \$9.05 million
Funded through the Market
Access Network Fund (Business
Tax)

**Scheduled
completion date:
December 2018**
