

**WHAT:** Installation of solar panels

**WHERE:** Lethbridge administration building

**WHY:** The building has high power consumption in comparison to similar structures. Some of this can be offset by the installation of solar panels, reducing the building's carbon footprint.

## WORK COMPLETED TO DATE

Waiting for braker panel to arrive, then commissioning will take place.

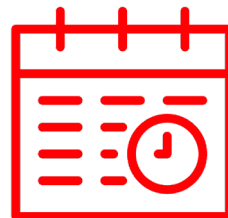

## BENEFIT TO RESIDENTS

The solar panels will help to offset the power consumption of the building and reduce its carbon footprint.

**Total project costs: \$158,265**

Funded through a provincial grant (Municipal Climate Change Action Centre's Alberta Municipal Solar Program rebate), and the Administration Building Reserve

**Scheduled  
completion date:  
mid-September  
2018**
