

8 Mile Lake Basin Storm Water Plan

WHAT: A storm water plan for the 8 Mile Lake Basin

WHERE: 8 Mile Lake Basin, north of the City of Lethbridge

WHY: The 8 Mile Lake drain has experienced flooding in the past which has resulted in property damage and crop loss. This area has also seen significant development in recent years, including residential, commercial, and industrial. The County's Stormwater Master Plan has identified this area as a priority that should be addressed immediately.

WORK COMPLETED TO DATE

In design phase.

BENEFIT TO RESIDENTS

The storm water plan will help administration to understand the drainage network and provide the information required to make decisions regarding approving developments, as well as improvements to the drainage system.

Total project costs: \$160,000

Funded through a provincial grant (Municipal Sustainability Initiative)

**Scheduled
completion date:
December 2018**
