

## AIRPORT WEST RESIDENTIAL WATERLINE

### LOCATION

West of the Lethbridge Airport

### PROJECT DESCRIPTION

As part of the Airport Area and South Co-op Water Supply Study completed in 2017, the area west of the airport was identified to have residential connections within a proposed new subdivision, as well as within and around the existing Valleyview Subdivision, and along Range Road 21-5. This project will include the installation of a 100mm (4") waterline that will connect to the airport waterline and run to the Valleyview Subdivision and the area of the proposed subdivision along Range Road 21-5 for approximately 3.5km.

### BUDGET/COST

The project is budgeted for \$720,000.
